

Submission to Yoorrook Justice Commission

From: Anonymous 556

Dated: 22 April 2024

Submission:

What does country mean to you?

It's my inheritance and I have a right to care for it.

What has happened to your mob and to country because your land was taken?

Water quality and landscape destruction from farming and irrigation and public land management have destroyed our country.

What are some examples of good practices or programs happening on country that could be adopted more widely?

To led projects that are self determined and have no legislative barriers.

What changes to laws or attitudes about land, sky and waters would you like to see?

The whole land management and farming industry need more regulations regarding involvement at the decision making stage. We need less laws regarding broader public engagement in water delivery. We also need the right to flood private property for the benefit of the environment.
