Timeframe over which cultural awareness training (or similar) has been delivered (within the period 1 Jan 2018 to 31 December 2023)	Helpful information could include: - how often trainings are delivered; - when cultural awareness training began being offered; and - the length of any cultural awareness training program(s).	The above mentioned training course have been available for staff to complete at their induction training, and annually thereafter, between 01 Jan 2018 – 31 Dec 2023. The length of the online modules is approximately 45 and 20 minutes respectively.
Confirm if training is compulsory (according to role type within the health service)	Helpful information could include: - are all frontline staff required to complete cultural awareness training? - is compulsory training required for staff in managerial roles?	Yes, it is compulsory for all staff to complete Aboriginal and Torres Strait Islander cultural awareness training at induction.
Confirm training completion rates (according to role type?)	Helpful information could include: - average training completion rates across the health service; and - training completion rates for each role type (to the extent this information is held).	At induction all staff complete cultural awareness training In 2023 – 33 staff members from various craft groups completed annual training
Provide copies of any training and assessment manuals	Please provide.	Report from Kineo on line learningCultural awareness Action plan
