

Submission to Yoorrook Justice Commission**From: Frank Jockel****Dated: 16 November 2024****Submission:**

I do not have a story, only a suggestion. That suggestion is, that whenever a person is born, they be adopted by the Mob that are custodians of the land where they were born. Immigrants would similarly be adopted into the Mob where they settle. That way we would all be part of the same one mob, and one big family. Without denying that people in the past did horrible things to other people. However, that was the past. And acknowledging the injustices, fair enough. However, moving onwards, we are going to be one family. Thank you.
